

Hannelore (3 Refresh)

- High Concept: Isolated young woman learning about the world.
- Trouble: Near-crippling OCD and anxiety issues.
- The Wizard of Counting Things
- The creepiest really-kind person in the world.
- Raised in space.

+3 (Good): Obsession

+2 (Fair): Passive-Aggressive, Insecurity

+1 (Average): Aggressive, Over-Confidence

+0 (Mediocre): Depravity

- Because **I have a limited capacity to deal with bullshit past my own**, I get +2 to **Aggressively creating advantages and overcoming obstacles** when someone is hurting themselves through neurosis.
 - o [Hanners and Fluttershy both have surprising moments of repressed rage.](#)
- Because **information is less scary than people**, I get +2 to **Obsessively creating advantages and overcoming obstacles** based on knowing things.
- Because **I've lived a sheltered life**, I get +2 to **Insecurely defending** against things that would freak me out with obliviousness.
